- React.js, [Next.js](#)
- Node.js, Express.js, NestJS
- Python (Django), RESTful APIs

### Frontend Development

- HTML5, CSS3, Responsive Web Design
- Tailwind CSS, Sass, CSS Preprocessors
- Redux, Zustand, State Management
- Mobile-first Design, Cross-browser Compatibility
- Performance Optimization, Accessibility (WCAG)

### Backend Development

- Server-side Development, API Design
- Database Design, Query Optimization
- Authentication & Authorization, Security Best Practices

### Database Management

- PostgreSQL, MySQL, MongoDB
- Prisma ORM, Drizzle ORM, Database Optimization
- Query Performance Tuning

### DevOps & Tools

- Docker, Containerization, CI/CD Pipelines
- Git, GitHub, Version Control
- AWS (Lambda, S3), Cloud Services

- GitHub Actions, Automated Testing

## Testing & Quality Assurance

- Jest, Cypress
- Unit Testing, Integration Testing, E2E Testing
- Test-Driven Development (TDD)
- Code Reviews, Quality Standards

## Development Methodologies

- Agile/Scrum, Software Development Life Cycle (SDLC)
  - Clean Code, SOLID Principles, Design Patterns
  - Problem Solving, Debugging, Performance Optimization
- 

## Key Projects

### DevFlow - Social Platform for Developers

**Live Demo:** <https://devflow.ahmedelbital.com> | **GitHub:** [github.com/ahmedelbital/devflow](https://github.com/ahmedelbital/devflow)

Social platform enabling developers to post, bookmark, like, and share content with GitHub integration

- User authentication and profile management
- Interactive social feed with posting, liking, and bookmarking
- GitHub integration for showcasing developer activity
- Advanced search and content discovery
- Fully responsive UI optimized for multiple devices

### ShipOrbit - Shipping Marketplace Platform

**Live Demo:** <https://shiporbit.ahmedelbital.com> | **GitHub:** [github.com/ShipOrbit](https://github.com/ShipOrbit)

Private shipping management platform enabling customers to create, manage, and pay for shipments handled by an in-house carrier network.

- Shipment creation and tracking system for customers
- Integrated payment processing using Stripe
- Internal carrier management (company-owned fleet)
- Automated booking workflow and order handling
- Secure and scalable full-stack architecture

### Personal Portfolio Website

**Live Demo:** <https://ahmedelbilal.com> | **GitHub:** <github.com/ahmedelbilal/portfolio>

Professional portfolio website showcasing projects, technical skills, and achievements with a focus on performance and user experience.

- Project showcase with detailed case studies
  - Fully responsive design across devices
  - SEO-optimized structure for improved visibility
  - Fast-loading pages using static site generation
  - Fast-loading pages using static site generation
- 

## Education

**Bachelor of Science in Computer Systems and Networking**

Sudan University for Science and Technology | Khartoum, Sudan | 2023

---

## Core Competencies

- **Full-Stack Development:** End-to-end application development from database design to user interface
- **Problem Solving:** Strong analytical skills with ability to debug complex technical issues
- **Performance Optimization:** Expertise in optimizing applications for speed, scalability, and user experience
- **Client Communication:** Proven track record of successful client relationships and project delivery
- **Team Collaboration:** Experience working in cross-functional teams and Agile environments
- **Code Quality:** Commitment to writing clean, maintainable, and well-documented code
- **Continuous Learning:** Passionate about staying current with latest technologies and best practices
- **Project Management:** Ability to manage multiple projects and meet strict deadlines
